

AROMACAN®

Drop-In Scented Canisters for Aroma Enhancement

AROMACAN® canisters provide technology that can add an aromatic sensory experience to nutraceutical packaging. The technology embeds food grade flavors, such as citrus or vanilla, directly into its plastic structure. AROMACAN canisters are dropped into nutritional and dietary supplement bottles providing a specific aroma when a consumer opens the container.

Regulatory compliant: AROMACAN are US-FDA compliant for use in nutraceutical applications.

Odor mask: The aroma profile of canister can mask off-putting smells, such as those experienced with fish oil, valerian root, probiotics and other strong substances

Enhance aromas: AROMACAN boosts a product's natural aroma association, such as orange for vitamin C

9 standard flavors: Lemon, Orange, Vanilla, Mint, Strawberry, Orange Cream, Strawberry Cream, Cinnamon, Pomegranate (Additional flavors can be considered depending on demand)

High-speed insertion: AROMACAN is suitable for insertion at high rates of manufacturing using standard desiccant canister insertion equipment.

AROMACAN are similar in shape to desiccant canisters with embossed "DO NOT EAT" markings

Regulatory compliance may vary depending on the country and end-use application, please contact your Colorcon representative for more information.
